DEMOLLI

La nostra Azienda ha iniziato la sua attività nel 1965. Gli obiettivi erano quelli di creare articoli nuovi che semplificassero i piccoli problemi di ogni giorno in casa ed in cucina, di raggiungere direttamente o attraverso distributori la maggior parte dei punti di vendita al pubblico e di vendere solo prodotti che avrebbero garantito un'ottima qualità ed un prezzo equo.

Il nostro assortimento attuale si compone di circa 700 referenze, raggruppate in tre aree di business: articoli in legno per preparare e impastare; prodotti in materiale plastico per la cucina e la casa; soluzioni per il risparmio dell'acqua e per la protezione della tua cucina. I nostri clienti sono i migliori negozi di articoli casalinghi, da regalo, ferramenta e grande distribuzione.

Il 35% dei prodotti viene esportato in Europa, America del Nord, America Latina, Africa e Asia.

Quando nel 1975 l'architetto Marino Ferrari ha disegnato per noi i primi ganci autoadesivi Magic non si pensava neanche con l'ottimismo della gioventù che questi nuovi prodotti sarebbero diventati il simbolo di un oggetto: tutti abbiamo in casa almeno un gancio autoadesivo Magic - MastroGuido.

Un altro articolo che ha cambiato radicalmente le abitudini in cucina è il tagliere in polietilene. Siamo stati i primi all'inizio degli anni 80 a produrlo e a diffonderlo sul mercato italiano integrando l'antica abitudine di utilizzare il tagliere in legno. Questo prodotto è decisamente più igienico ed offre un supporto ideale ai coltelli, si può lavare e asciugare con estrema facilità. Oggi produciamo 18 modelli di taglieri in polietilene e in polipropilene, in oltre 15 varianti di colore.

La nostra Azienda è sempre stata attenta al rispetto dell'ambiente: i prodotti in legno e le confezioni sono in linea con le esigenze imposte dall'ecologia.

Per il futuro siamo impegnati nella ricerca di nuovi articoli che continuino la tradizione ormai più che cinquantennale della nostra Azienda con l'entusiasmo di sempre.

Our Company began its activity in 1965. Its aim was to create new articles which could simplify and solve everyday's problems in the house and the kitchen. Its goal was to reach the majority of retailers, directly or through distributors, and to only sell those products which could guarantee optimum quality at a fair price.

Our current assortment consists of around 700 references, grouped into three business areas: wooden items for preparing and kneading; plastic products for kitchen and home; solutions for saving water and protecting your kitchen.

Our customers are the best household goods, gift, hardware and large-scale retailers. 35% of the products are exported to Europe, North America, Latin America, Africa and Asia.

When architect Marino Ferrari, in 1975, designed for us the first self-adhesive hook Magic, we could never imagine, despite our youthful optimism, that these products would have become a symbol: everyone has at home at least one of these Magic-MastroGuido hooks. Another article that radically changed people's habits in the kitchen is our polyethylene cutting board. We were the first ones to produce it in the '80s and to spread it on the Italian market, replacing the old habit of using wooden cutting boards. This product is much more hygienic, while also offering an ideal support for knives and it can be washed and dried with extreme ease. Today we produce 18 models of polyethylene and polypropylene cutting boards, in 15 different shades and colours.

Our Company has always been respectful of the environment: our wooden products and our packaging are in line with the demands imposed by ecological concerns.

For the future, we are committed to research and design new articles which can continue the more than 50-year-old tradition of our Company, and with our usual enthusiasm.
